CAREER OBJECTIVE

Computer Science undergraduate interested in AI, backend systems, and building technology that creates real-world impact. Enjoys solving problems, connecting with people, and contributing to teams through curiosity, adaptability, and continuous learning.

EDUCATION

B.E. Computer Science & Engineering

Rajalakshmi Institute of Technology (Autonomous) *2023–present*
CGPA: 8.3/10

HSC, Christuraja Matric Higher Secondary School *2022–2023*
Percentage: 92.5%

INTERNSHIP

Full-Stack Developer Intern, PropGrowthX *4 Months*

- Developed RESTful APIs and backend workflows for property management, listings, tenant operations, and transaction processing.
- Improved user experience through frontend–backend integration and UI/UX enhancements.

PROJECTS

SCAMSHIELD (Cybersecurity + Trust Intelligence Platform)

Java | Spring Boot | React.js | REST APIs | Threat Intelligence APIs

- Developing a cybersecurity platform using Java, Spring Boot, and React to identify internship scams, phishing emails, and suspicious recruiter domains.
- Implementing trust scoring, domain reputation analysis, and threat intelligence integration to support scam detection and online trust assessment.

MULTIMODAL FAKE REVIEW DETECTION SYSTEM (Research Project)

Python | PyTorch | Transformers(BERT) | FastAPI | Docker

- Co-authored a peer-reviewed research paper proposing a multimodal framework for detecting AI-generated fake reviews using textual, visual, behavioral, and temporal signals in e-commerce platforms.
- Executed cross-validation and rigorous regression testing on BERT-based transformers to validate algorithmic accuracy.

LEADERSHIP & ACTIVITIES

Chairperson, Accessibility Vertical – YUVA Club

Walkalong 3.0 | Elliots Beach, Chennai | August 10, 2025

- Contributed to an inclusive community walk celebrating and empowering persons with disabilities and neurodivergent individuals.
- Drove accessibility-focused initiatives under the YUVA Club umbrella.

Student Placement Ambassador

FICCI Event | Ramada Palace, Guindy, Chennai

- Represented the institution at the FICCI industry event and supported student engagement.
- Guided students in engaging with industry professionals and recruiters.

SKILLS

Languages

Java • Python • JavaScript

Frameworks & Tools

React.js • Spring Boot • FastAPI
Node.js • Git • Docker • Postman

Databases

MySQL • MongoDB

Core CS Concepts

- Object-Oriented Programming (OOPs)
- Database Management Systems
- Operating Systems

FIELD OF INTEREST

Artificial Intelligence & ML
Natural Language Processing
Full-Stack Development

ACHIEVEMENTS

- Co-authored a **peer-reviewed research paper** on multimodal fake review detection.
- Participant, **Smart India Hackathon (SIH) 2025** – Built *Focus App*, an AI-powered productivity application.
- **Shortlisted** for Tesco Media Innovation Jam Hackathon.

CERTIFICATIONS

- **Machine Learning** – Stanford University
- **Google Cybersecurity** – Google / Coursera
- **Front-End Development** – FreeCodeCamp

PERSONALITY TRAITS

- People-oriented and empathetic
- Adaptable under changing requirements
- Detail-oriented problem solver
- Collaborative team contributor

EXTRA-CURRICULAR ACTIVITIES

- Active participant in dance, performing at college cultural events.
- Regular badminton player with an interest in sports and fitness.
- Actively learning Japanese.
